Notice of Addendum to the LOCALIZED HEALTH IMPACTS REPORT

Selected Projects Awarded Funding Through the Alternative and Renewable Fuel and Vehicle Technology Program Under Solicitation PON-12-606 Publication CEC-600-2015-002-AD

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The Original *Localized Health Impacts Report for Selected Hydrogen Fuel Infrastructure Projects awarded funding through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-12-606* was posted on May 10, 2013 and the 30-day public comment period ended June 10, 2013.

The Energy Commission has published an addendum to the original *Localized Health Impacts Report* that analyzes a new location proposed for funding under the Program. The addendum was publicly available on January 21, 2015.

The addendum to the report includes staff application of the Environmental Justice Screening Method (EJSM) to identify projects located in areas with social vulnerability indicators and the greatest exposure to air pollution and associated health risks.

The specific project proposed by Linde, LLC, and analyzed in this report has changed locations from 21530 Steven's Creek Boulevard, Cupertino CA 95014 to 2300 Homestead Road, Los Altos, California 94024.
